Hospitality Signage Solutions

HERO TECHNOLOGIES

We've always known that the hospitality industry IT can be a real challenge to manage and drain or a hindrance for their business, but it has been shown time and again that managed IT solutions drive success. Staying on top of your technology includes controlling the costs associated with keeping in-house staff up-to-date with training and current trends. Our philosophy is that our customers should be focused on running their core businesses and not their technology. That's where we come in.

Hero Technologies provides end-to-end support for [Hospitality Signage Solutions](#). You benefit from years of experience in design, installation, provisioning, and proactive monitoring, as well as on-site service & repairs, creative services, and content creation & management. All of this comes with access to 24/7/365 call centre support. Through our coast-to-coast partner network, we are at [your](#) service to ensure [your](#) signage solutions deliver [your](#) content consistently and reliably.

For the Hospitality vertical, integration into existing [Property Management Systems \(PMS\)](#) such as Oracle Hospitality [OPERA](#) Property suite provides added value. Our team of developers can readily integrate data from various [PMS](#) and facilities systems to generate and display data on [your](#) Samsung [LYNK](#) Solution.
